EDUCATION

Universidad Militar Nueva Granada

Mechatronics Engineering

Jan. 2019 – Apr. 2025

Cymetria

Cloud computing

Sep. 2024 – Dec. 2024

Oracle Next Education

Beginner Programming Training / Front End Training / React Training

May. 2023 – Dec. 2023

Universidad de Antioquia

Programming skills training program with emphasis on mobile application development.

May. 2021 – Dec. 2021

EXPERIENCE

Fullstack developer

Mar. 2025 – Apr. 2026

Weibook

- Developed and maintained scalable web applications using React.js, Next.js, and Angular, supporting 1M+ users interacting with booking links and 2K+ active platform users.
- Implemented complex scheduling logic, enabling management of 500K+ monthly reservations with overlap validation and real-time rescheduling workflows.
- Built multi-step booking flows with integrated Stripe payments, supporting high-volume traffic and improving online reservation conversion.
- Designed and consumed 20+ RESTful API endpoints with Node.js for reservations, customers, collaborators, inventory, and transactions.
- Processed 400K+ monthly POS transactions, implementing multi-payment support, discounts, and real-time financial calculations.
- Optimized performance by refactoring legacy code and improving MySQL and MongoDB queries, reducing response times by 20–30% and improving system scalability.
- Integrated FullCalendar to manage 500K+ monthly reservations with resource-based scheduling and real-time updates.
- Implemented monitoring and observability using Grafana and New Relic, improving system visibility and incident response times.

Front End web developer

Sep. 2023 – Jan. 2025

Standard Salud

- Development of interactive web interfaces using React.js, improving user engagement by 25% through optimized UX flows.
- Built and maintained 30+ reusable components, reducing development time for new features by 35%.
- Integration of RESTful services and external APIs to enhance communication between frontend and backend.
- Execution of unit testing with Jest / React Testing Library to ensure code quality.
- Utilization of Git and platforms like GitHub for version control, working under agile methodologies.

Engineering Intern

Dec. 2023 – Dec. 2024

Slb

- Engineering Intern in the ALS (Artificial Lift Solutions) Area.
- Data analysis and visualization using Power BI to support decision-making.
- Participation in the Quality Control Process (QCP), ensuring standards during assembly phases.
- Development of CAD designs for technical and operational projects.

Software Developer & Systems Administrator

Jun. 2020 – Jan. 2026

Fundación Artística y Cultural Talentos - Freelancer

- Developed and maintained software solutions that streamlined organizational workflows and information management.
- Built data processing and reporting features to support operational and strategic decision-making.
- Improved system performance and reliability through debugging, optimization, and feature enhancements.
- Participated in the full software development lifecycle, including requirements analysis, implementation, testing, and deployment.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML/CSS, Java, Python, C/C++, SQL, PHP, MATLAB, Go, Kotlin, .NET

Frameworks: Angular, React, Node.js, Next.js, Vue, Django, Electron

Developer Tools: Git, AWS, VS Code, Visual Studio, PyCharm, NetBeans, MongoDB, MySQL, Power Bi, Power Apps, DigitalOcean, PostMan, Android Studio, WordPress

Libraries: NumPy, Matplotlib, Pandas, Bootstrap, CoreUI, materialUI
